

Appl. No. : **10/720,712**
Filed : **November 24, 2003**

SUMMARY OF INTERVIEW

On January 9, 2009, Applicant's representative, Ronald Schoenbaum, conducted a telephone interview with Examiner Liu to discuss the initial Office Action issued in the present application. During the interview, an agreement was reached to amend claim 27 by replacing "content that may be viewed" with "content that is viewable" to address the rejection under section 112, second paragraph. With respect to the art-based rejection, Mr. Schoenbaum explained that the Blinn reference does not disclose the use of a page update handler as recited in the independent claims of the present application. In connection with this issue, Mr. Schoenbaum explained that the referenced portions of Blinn describe a process in which the requested page is constructed or updated on the server, and not on the user computing device that requested the page.
